GI FORUM ASKS FOR KINDERGARTEN

The American GI Forum of Hondo and its Ladies Auxiliary presented a petition Tuesday to the Board of Trustees of the Hondo Independent School District calling for the establishment of a kindergarten in Hondo as a part of the public free schools of the school district.

The petition was filed pursuant to the provisions of Article 2919 of the Civil Statutes of Texas and as part of the statewide campaign of the American GI Forum of Texas to eliminate language difficulties of beginner pupils of Mexican extraction.

Oswald Nira and Trinidad Lopez of the Hondo Forum and Mesdames Mary Sanchez, Odalia Garcia and Oralia Arcos of the Auxiliary participated in the drafting, circulating and presentation of the petition.

Twenty-eight persons signed the petition; only parents or guardians of children under school age down to and including five years of age were qualified to petition for the free kindergarten.

★ Firemen Feel Privyldged

The heat was on last week, according to the Hondo Volunteer Fire Department.

Wednesday of last week, firemen rushed to the residence of Manuel Rodriguez at 1110 Ave. N where an attic fire had been reported. A 12-year-old boy, Tony Santos, had spotted the blaze, shinned up a tree and guided a garden hose on the flame, extinguishing it by the time the firemen arrived.

On Monday, the hard-working fire department were privileged to put out a fire at 1501 12th St., where an outhouse had caught fire. The building was a total loss, and the only thing saved, as seen by your intrepid reporter, was the "picture frame" leaning against one of the trees in the yard.

No injuries in either fire were reported by the VFD except to their professional rpide.

No Signatures From Castroville, Devine

Following a heated discussion of the hospital situation Monday night, committeemen attending the meeting decided to send out the petitions for an election for one additional week in order to obtain the required number of signatures. Deadline now has been changed to Monday, August 5, for circulating the requests for an election.

L. E. Pope, serving as chairman of the Medina County Hospital Committee, opened the meeting by reading letters from both the delegates of LaCoste and Castroville. Victor Tondre, committeeman from Castroville, returned his unsigned petition with a letter stating that in view of the feelings of his people he was asking to resign from the committee. However, about fifteen minutes later, he arrived for the meeting Monday night.

The LaCoste letter, from R. J. Mangold, hospital committeeman, said that he was also returning theirs unsigned.

Pope, stating that he had heard that Devine had some change to offer in the plan of procedure, then called on the delegation from Devine. Joe Briscoe was spokesman for the foursome which included Frank Bain, president of the Devine Chamber of Commerce, Richard Irwin, vice-president of the Devine C. of C. and W. L. "Dub" Dubose of the Devine News.

Contributions Better Than Bonds

Briscoe began by stating that "We, unlike Castroville and LaCoste, have at least come in person to tell you that our petition is unsigned. We want to express what we feel is the general consensus of opinion for our area. We feel that a bond issue would not pass in the Devine-Natalia area. We feel that a county hospital located in Hondo would be a good thing, but we do not want to support it with the issuance of bonds — maybe it would be better on a contribution basis."

At this point some late comers arrived, introductions were made, Briscoe's statement was reviewed briefly by Pope, and Briscoe was asked to continue.

"We suggest," Briscoe went on, "— the possibility of a portion of a new county hospital be built in Devine, perhaps two-thirds of the plant in Hondo, one-third in our area." He further pointed out that the recent state legislature had enacted laws for a hospital authority on a county-wide basis that would allow the authority to issue bonds and establish hospitals in two cities of a county instead of only one.

At this point, Pope took the floor. He began by stating that the Hondo Chamber of Commerce undertook the sponsorship of a county hospital because there was no county chamber of commerce organization to get the project underway. He said that they took it under two conditions.

"The first," Pope said, "was that the present owners of Medina Hospital in Medina County make a statement that they were ready to retire. This they did. The second was that everything in the operation of the hospital committee set up to plan the project be completely above board."

"And I do not consider that everything from the Devine area has been above board. Immediately after the first general meeting, at the court house, which was open to the public some things happened in Devine which most certainly were not above board. And since that time, you Devine men have been notified of each and every meeting. Instead of coming yourselves, you sent a pair of representatives to only one meeting and then no one has bothered to show up for

CALENDAR GIRLS for August are L to R, Susan Marie Riff, daughter of Mr. and Mrs. Douglas Riff of Hondo, Mrs. Alice Bertreaver, R. N., and Wanda Frances Nehr, daughter of Mr. and Mrs. Frank Nehr of D'Hanis. The young ladies are the granddaughters of two Anvil Herald employees, Mrs. E. W. Brucks and Mrs. Joe Krenmueller. Wanda was

born July 19 and was the 200th descendant in the Bernhard Brucks lineage and the first member of the sixth generation. Susan was born July 20 and was exactly four hours old when her picture was taken. Susan is the 201st descendant in the Brucks lineage.

HAB Gets Bowling Alley, New Pool

Hondo Air Base is in the middle of a face-lifting campaign with about a dozen projects to improve facilities under discussion and construction.

Heading the list is eight new bachelor officer's quarters which have recently been completed at a cost of \$250,000. The buildings are constructed of light weight concrete blocks and are completely air conditioned for constant temperature, winter and summer. The new quarters will house 64 men, eight in a building in two-man apartments. Each apartment has separate bedrooms, a living room with modernistic furniture and studying facilities and a bathroom. Student officers are expected to move into the new quarters around August 1.

Also under construction is a new, six lane bowling alley in the old Hitching Post building.

Teacher Situation Good, Barry Says

"We are in pretty good shape on the teacher situation," Superintendent of Schools J. G. Barry stated Wednesday morning. "In fact, better than we have been in several summers."

Barry says that he has only one vacancy at Meyer Elementary School, which takes care of the first three grades, and one fifth grade teacher at Lacy School where the fourth through eighth grades are housed.

The average daily attendance for the Hondo Schools increased to such an extent last year, that the state will now pay the salaries of several additional teachers. One of these, Barry said, could be a school supervisor who would assist the teachers with their work, aid in finding materials and coordinate the work of teachers of different sections of the same grade. The qualifications for this job are so high, though, that Barry says it is quite doubtful he will be able to find one. The supervisor is required to have both a Bachelor and Master degree and additional special work.

2 TEACHERS NEEDED

Barry would also like to secure a speech teacher and a librarian as additions to the high school staff, and he is in great need of a Spanish teacher. If he is unable to find a qualified Spanish teacher, it will have to be omitted from the courses for this year and picked up again next year.

The increase in scholastics has made it necessary to add one more third grade teacher, which will make five sections of that grade and which will completely fill the new school building. Last year there was one vacant classroom in the south wing.

NEW TEACHERS ASSIGNED

New teachers added to the faculty recently include Edward J. Hilsner Jr. who has been with Texas Aviation Industries. A former teacher, he wants to get back into the profession, and has been assigned to teach science in Junior High School.

Both Mr. and Mrs. Gerald Hay will be teaching in Junior High School and Mrs. Hay, who will be remembered as the former Betty Jo DeMontel, has been assigned sixth grade work.

Two family men, each with a wife and baby, have also been assigned as Junior High teachers. William Patrick of Port Arthur will teach math and serve as Junior High coach. Louis Holt will teach classes in these grades but will also serve as assistant coach under Max Carver of the high school staff. Both Patrick and Holt are looking for apartments or houses to rent.

Mrs. Vivian Zinsmeyer, formerly of the school staff, is returning to a position this year but her assignment is not definite.

Mrs. M. L. McDowell, formerly of Smithville, will have a fourth grade class. Her husband will serve as principal at Meyer Elementary and in addition will have a couple of math classes in high school.

There are no changes in the high school staff except in the band director's position. Bob Lewis is moving to San Antonio within the next few days and new director Joe Lee, is arriving about August 15.

Scheduled for completion about September 1, the alley will have semi-automatic pin setters and will be air conditioned. According to Walter C. Gunstream, general manager of Texas Aviation Industries, the new bowling alley is being built primarily for students at the base. He added that TAI would like to see the bowling facilities open to others as well, and is working toward that end.

The golf course has also been considered in face-lifting at HAB, and a new putting and driving range is under construction on the lots next to the Hitching Post. It has been also proposed that holes 8 and 9 be moved across the road to the lot also.

And for hot rod fans, a new automobile hobby shop is being built in what used to serve as the National Guard motor pool. To be exclusively for military personnel, the hobby shop will have tools and equipment for the students to use in their spare time.

Several other projects have been approved and are open for contracts. These include a new 82 by 42 feet swimming pool to be located between the cadet club and the officers' club.

Estimated cost of the new pool, is \$50,000. Primary reason for the construction of the new pool, according to W. E. Bolch, construction engineer for TAI, is to cut down on the time wasted by cadets in travel to and from the present pool. He said that the new pool would add about 30 minutes a day on to their training schedule.

Air Base Awarded New Contract

Texas Aviation Industries, Inc. Hondo Air Base has been awarded a letter contract amounting to one million dollars, with estimated amount of definitive contract totalling three million, two hundred thousand dollars, officials of Headquarters Air Materiel command announced today by telegram. The contract is for the operation of the primary pilot training school at HAB.

According to Paul Bybee, HAB Director of Maintenance, the contract is in line with those of previous years.

Devine Opposed

Briscoe said "I told you, Pope, at least six weeks ago that the people in Devine were opposed to this proposition." Pope answered, "You told me that the Devine Chamber of Commerce was opposed because of instead of helping with a county hospital you all wanted to push the idea of establishing a junior college district in your area."

Bain said that he didn't know of anyone who didn't agree that Hondo needed a new hospital, at which point Pope interrupted to say, "Not Hondo — Medina County — this will be a county hospital. You are using our privately owned one here all the time." (See HOSPITAL, Page 10)

HAB Craft Crashes Near Sabinal

A Hondo Air base cadet escaped injury Monday afternoon by parachuting from his T-34 trainer after its controls became frozen, four miles north of Sabinal.

Taken to the HAB hospital and released was A-C Billy E. Stroude, son of Mr. and Mrs. Elbert W. Stroude of 169 Hamilton St., Plymouth, Mich. Stroude was on a routine solo training flight when the accident occurred. Absolute cause of the crash has not yet been determined.

This crash marks the end of 76 accident-free days for HAB.

LaCoste Sailor, Drowning Victim

HM-2 William Lawrence Thompson aged 21, U. S. Navy, drowned at Fort Lauderdale Fla., Monday July 22, 1957. Survivors include his parents, Mr. and Mrs. Dill Thompson of LaCoste; brothers Carl, U.S.N. Air Force, Kenneth and Roger, LaCoste; grandparents, Mrs. Bertha Thompson and Mrs. I. L. Valentine, both of San Antonio.

Funeral services were held at 10:30 a.m. Tuesday July 30 in the Akers Chapel in San Antonio. Interment was at National Cemetery, Fort Sam Houston with full military honors.

It's often said we shouldn't bite off more than we can chew and according to Mr. and Mrs. Leo Highsmith, this old maxim still holds true.

It seems that a rattlesnake crawled into their pigeon pen one night last week and attempted to swallow one of the birds whole. The next morning the Highsmiths found the would-be pigeon gobler — with the dead bird stuck in his craw.

Col. R. S. Boward, director of personnel at Texas Aviation Industries, Inc. is leaving Hondo this week for San Antonio, due to the elimination of the position of the TAI staff.

Boward was honored at the Hondo Lions Club meeting Wednesday by a resolution of thanks for meritorious service to the club. He was third vice-president of the club.

Hondo's MYF has dubbed Saturday Hondo Day and judging from the posters around town, really plan to go all out to raise money for their organization.

The affair will consist of doing odd jobs on a pay-what-it's-worth basis. Hobos can be obtained by calling HA 6-2073.

Chaplain Marion L. Nelson of Hondo Air Base, who has been assigned to Germany says that he has never lived in a place he regretted leaving more than Hondo. He commented that he and his friends here and they hoped to come back to Hondo someday.

SERVING WAS ALMOST OVER when this picture was taken at the picnic grounds on Hondo Air Base where the Chamber of Commerce-City of Hondo barbecue was held for student officers

and cadets of Hondo Air Base, on Tuesday of last week. Some of the students tasted real Texas style barbecue for the first time and gave their hearty approval.

THE PROOF OF THE PUDDING is in the old saying goes, and judging from the expression of the cadet doing the tasting, it might have been anything.

L to R, Riggs Shepperd and Sam Lan-

ham seem to be putting up a convincing argument in their own behalf as cooks at the Chamber of Commerce-City of Hondo Air Base Tuesday of last week.

OUR PLEASURE TO SERVE YOU, is Mrs. Minnie Braden's motto as secretary of the Hondo Chamber of Commerce, but it is one time she really enjoys do-

ing it. Her assistant is Ralph Jones and judging by those heaped up plates the cadets are seen carrying, it was serving in a grandiose style.

WHETHER THIS IS BEFORE OR AFTER eating the barbecue has not been determined. L to R, Elmo Pope, president of the Hondo Chamber of Commerce and Mayor Thomas B. Knopp ponder the problems of the day in some serious thinking, at C of C-City of Hondo barbecue at the picnic grounds of Hondo Air Base, Tuesday of last week.

PERSONAL APPEARANCE

By Jerry June Berger

Have you ever approached the traffic lights on Highway 90 when a train was on the main tracks within the city limits? If you have, you know that you are greeted by flashing red lights no matter which way you are headed — north or south, east or west — and a great deal of confusion. All traffic comes to a full stop but nobody seems to know whether to venture on out and hope that a car from another direction doesn't decide to venture out at the same time, or whether to just stay stopped.

That was probably arranged on purpose so that drivers would realize the danger of the railroad crossing, but it seems unnecessary to have all through traffic on Highway 90 participate in the confusion when they have no intention of crossing the tracks.

If highway officials want to keep the situation as it is, it seems they should at least erect signs on the highway stating that when the light is flashing red, cars should stop, then proceed with caution. As it is, drivers don't know whether they'll be hit or arrested for proceeding.

The "Hard Luck Hedges" have come smiling through another crisis or two recently. CYNTHIA HEDGE, 8-week old daughter of Mr. and Mrs. W.B. HEDGE, had surgery in a San Antonio hospital last Wednesday but made an overnight recovery.

Also last week, NANCY, oldest of the youngsters, was sent home from Camp Fire Girls Camp near Waco because one of her tent mates developed polio. Two other Hondo girls were in the same tent and were also sent home. They were GAYE TILLEY and MAIDA CORDER.

But back to the HEDGES — ELIZABETH, aged six, is her original active self again following her collision with a car last spring — so things are looking up around the household once more.

It's normal for most kids to have a campaign on about some item they want, but some are a great deal more persistent than others. One of the funniest we have heard about recently concerns JO NEAL AYCOCK, daughter of Mr. and Mrs. JACK AYCOCK.

She was visiting ELIZABETH HEDGE one day when vitamin time came around and NANCY passed a pill out to RIPPER, ELIZABETH, MICHAEL and also handed one to JO NEAL.

Since that time her mother says the determined young lady has begged at least 100 times each day for a big jar of vitamin pills.

MRS. AYCOCK, incidentally, is a sister of MRS. PETE (DOVIE) KNOWLES, formerly of Hondo.

Summer time is also camp time. PAT VANCE, son of Mr. and Mrs. FRANK VANCE, is attending Camp Cayoca at Castroville, and SUSAN MIMS, daughter of Dr. and Mrs. JOE MIMS, is up at Mount Wesley near Kerrville this week.

The week of August 5, SUSAN'S sister KATHY will go to Mount Wesley and also LARRY BYBEE, son of the PAUL BYBEEs, and PENNY STRICKLAND, daughter of Mr. and Mrs. CONNIE STRICKLAND.

Summer time is also visiting grandma time. JUNIOR and BOBBY HEIRMAN, sons of Mr. and Mrs. LEO HEIRMAN, are in Abilene visiting their grandmother, MRS. JOHN GRAVENS, for the month of August. MRS. GRAVENS, along with Mr. and Mrs. JOHN GRAVENS JR., was here for the weekend and took the boys home with her.

The HEIRMANS are planning to move within the next week or so to a home about a mile north of town.

CLAUDE W. DAVISON, formerly at Hondo Air Base and director of First Methodist Church choir, is majoring in voice at Illinois Wesleyan University and presented a recital at the school on June 23.

Before leaving Hondo he took a Medina County bride, the former JACQUELINE NEHR of D'Hanis. They hope to be here for a visit around August 18.

LETTER TO THE EDITOR

Gentlemen:

Increased population in southern Bexar County has necessitated a readjustment of box numbers on our rural route, and we should like to inform you that, beginning August 1, our address changes from Route 7 Box 317, San Antonio 4, to Route 7, Box 390, San Antonio 4.

We shall appreciate your making this adjustment in our address so that there will be no danger of our missing a copy of the home town paper. My mother, Mrs. Strawn, who had lived alone in Hondo for many years, has been a bed-ridden invalid in our home since last December, and I truly believe that looking forward to the Hondo paper is one of the most important contributions to her will to live. Her vision has become so poor that she can't read all of it, but how she does pore over the pictures and the headlines!

Thank you sincerely for the pleasure that you weekly bring into the homes of all us ex-Hondos.

Sincerely yours,
Mrs. A. P. Weiss

A Tribute To The Pottery

By JERRY JUNE BERGER

Every couple of months, while looking over a home or ladies magazines, we come across a full page four-color advertisement which fills us with pride. It is for Universal Rundle plumbing fixtures, and always, on the bottom line of the ad, is Hondo, Texas.

Our city should feel quite honored to be associated with this company. When they came to Hondo and took over the existing pottery plant, they moved in the finest of men in the managerial positions.

These executives came not knowing a soul, but they brought their families and have bought homes here.

They joined civic clubs, they joined churches, they have taken an active part in many community undertakings. They are first-rate citizens.

Yes sir, we're really proud to have them here. Hondo will look a long time before finding another industry as nice as this one is.

QUOTES AGAIN FROM
A TEXAS PIONEER

Santleben Has Some Close Calls
Continuing from where we closed in our last installment, your Columnist again quotes from the August Santleben story as follows:

"Generally I found it prosy business wandering through the mesquite bushes in search of my oxen, but one foggy morning I had an exciting experience when I saw a panther in my path feasting on a calf he had killed. He was only a few feet in front of me, but he was so intent on satisfying his hunger that he only looked at me without rising. I, on the contrary, was very much startled, but a spell of fascination crept over me which kept my eyes fixed on him as I slowly backed from his presence a few steps before turning, and then I ran towards home at the top of my speed. I was bare-footed, as was usual with country boys in those days, who only wore shoes on Sundays, and my toes clawed the ground and helped me along. I was making pretty good time when I stepped on a large rattlesnake that was coiled in my path, which filled me with horror, but before it could strike I made a frantic leap in the air and landed beyond his reach. The accident caused my fear of the panther to subside and reduced my gait to a walk. But these adventures did not make me abandon my search, which I continued, though with greater caution, until the musical ox-bell in the distance guided me to the animals I was seeking and I drove them home."

"On another occasion Mr. Oefinger went out hunting one Sabbath morning, and he allowed me to accompany him. He carried an old-fashioned army musket, which was loaded with the only charge of buckshot that he had, and I was unarmed. On the east side of Quibi prairie we suddenly found ourselves in the midst of a herd of about twenty-five javelinas, or Mexican hogs, that were feeding in a thicket of scrubby live-oak. When they saw us all of them bunched together with their heads towards us while their teeth clashed in a threatening and vicious manner until Mr. Oefinger fired into the bunch. As the gun fired they rushed towards him and they moved so quickly that he only had time to climb a small tree beyond their reach. I was standing about twenty steps behind him and knowing the danger I followed his example, but as Mr. Oefinger was the aggressor he received all of their attention. He wanted me to descend from my sheltered position and gather rocks with which to drive them away, but I was afraid, consequently we remained in our place of refuge until they disappeared an hour later."

"The Mexican or musk hog, which is common in many sections of west Texas, has a sack on its back that contains a secretion which has a strong odor. They are aggressive, often attacking persons without provocation, and when wounded they are dangerous. Their long, sharp tusks cut like a knife and it is difficult to avoid them when on foot because of their quick movements and manner of fighting."

"During the time I served Mr. Oefinger I had many hours of recreation and my tasks were never heavy. My personal expenditures amounted to only twenty-five cents a month, that went for candy which I bought at Mr. Bailey's (Probably Boehle-C) store in Quibi, and frequently my friend and playmate, Frank Rieden, now living in San Antonio, helped me to eat it. My wages were well-earned, and when I received the nineteen dollars that was due me I returned home with the money and placed it in my father's hands with a great deal of pleasure."

"Mr. Bowles was another old friend of my father's who lived in Sabinal, in 1856, and I remember the old double-barrel shot-gun he showed my father soon after killing three Indians with it by discharging both barrels at the same instant. The gun was then out of order, and he was taking it to San Antonio to have it repaired."

"The particulars of the killing, as Mr. Bowles related them to my father, are about as follows: The Indians had made a raid into the settlements, and after the fact became generally known, every one was on the watch for them. Mr. Bowles loaded his gun very heavily with buck-shot and took a position after dark on an elevation near his house, where he stood guard. He had only waited a short time when he saw three Indians approach on foot, following each other in single file along a foot trail. After bringing his weapon to his shoulder he waited until they were in close range and then fired both barrels simultaneously. The recoil of the gun threw him on his back and it flew out of his hands behind him. After recovering from the shock the Indians had disappeared and he made an investigation with the result that one Indian was found dead in his tracks and another where he fell a short distance beyond. The search was continued and next morning along a bloody trail, and after following it about three hundred yards, the corpse of the third Indian was found."

(From the Bandera New Era, July 14, 1932.)

Under the above heading, we found in a recent issue of the Bandera Bulletin, among other items, the following:

Report has just reached us that several of a crew of Medina county road hands were water-borne on the Hondo river, fifteen miles from Hondo, during the flood recently. When the river started rising, all of the crew except Oscar Fillemann, Alfred Bader and Augustine Hermes, had gone to Hondo. The river came down on a twenty-five foot rise and in just a short while the water was all around the camp and up to within six feet of the tent, forming an island, on which was counted three men, seven hogs and an armadillo. The second night the men vacated the island at eleven o'clock, and when the waters subsided they returned to camp and found the water had been up to within two feet off their tent. They did not know what became of the hogs and armadillo.

Dr. Hazel Price of New Orleans, enroute to Los Angeles, California for a two-months' vacation, stopped over here Sunday for a visit with Dr. O. B. Taylor, her former classmate at Tulane University, continuing her trip to California Sunday evening.

An unfortunate dope fiend drifted in from God knows where Thursday, visited the offices of both Dr. J. H. Meyer and Dr. W. H. Smith and at both places surreptitiously percolated a quantity of dope. In administering the narcotic to himself he got an overdose and was found unconscious near a hydrant where he had been trying to drown his thirst. As we go to press he is sobering up in the county hospital, and, as the unused portions of the drugs were recovered by the doctors, he will probably be permitted to go without prosecution.

HIGHLIGHTS and SIDELIGHTS FROM YOUR STATE CAPITOL

Despite the static about treasury trouble, Gov. Price Daniel insists that the Texas Legislature can hold a special session and still have money left over.

Recently, House Speaker Waggoner Carr and others suggested that the state might not be able to pay session costs without a new tax. But the governor said his budget department estimates that a brief session, limited to two or three subjects could be held for as little as \$250,000. He reported that some \$618,416 is available. This is considerably more than any previous estimate had indicated.

Governor Daniel made it clear that none of the objections have lessened his determination to issue a special call for passage of lobby control, water conservation and possibly other important measures.

HELP ON OIL ASKED
As the state moved into another month of low oil production, Governor Daniel wired President Dwight D. Eisenhower that "a real emergency exists."

He asked the President's help in obtaining a limit on foreign oil imports. "More drilling rigs are being stacked," the governor's wire noted, with an "adverse effect on state revenues."

Because of lowered demand for Texas oil, the Railroad Commission set the August allowable at 13 producing days, same as for July. It is the lowest producing pattern ever used in the state.

INDIVIDUAL INCOMES UP
Texans are getting richer, according to Uncle Sam's tax reports for fiscal 1957.

For the five-state Southwestern area federal tax collections hit all-time record total of \$434,149,316. More than half of this — \$250,867,402 — came from Texas. This is a 7 per cent increase for this state over last year's collections.

Of this total, 75 per cent comes from income taxes, the remainder from employment taxes, excises, etc. Revenue officials attributed the big jump to higher salaries in the Southwest.

IT'S AN ILL WIND

Cricket season came early this year in the Capital City. The pesky, black jumpers which pay Central Texas an annual visit in great numbers, are here.

But Marion Toole, aquatic biologist for the Texas Game and Fish Commission, says it's a lucky season for fishermen. Crickets, it seems, are considered a real

delicacy by all game fish. But sunfish and bass bite them best, he says. "It's too good an opportunity for any fisherman to pass up."

So, while merchants fight them in downtown areas and home owners spray and dust around porches and patios, both fish and fishermen can have a field day. "And they'll be with us until early September," Toole added.

TRAFFIC TOLL UP
Texas traffic deaths and injuries jumped an estimated two per cent for the first six months of this year as compared to 1956.

Reports from the Department of Public Safety for January-June of 1957, show 96,785 accidents. Total for the same period in 1956 was 91,555 accidents. Final figures on deaths and injuries are not yet tabulated.

One bright spot, however: deaths dropped from 5.7 per million vehicle miles to 5.5 for this year.

VETS DUE REFUNDS
Some \$16,271 in fees will be returned to veterans who started, but did not complete, transactions with the Veterans Land Board.

Before it was amended by the last Legislature, the law did not allow the board to return fees to veterans who changed their minds about buying land.

Average refund will be about \$70, largest \$100, according to Land Commissioner Earl Ruden.

"FLU" WATCH ON
An outbreak of Asiatic "flu" in Texas is likely, say State Health Department officials.

Many Texans were believed exposed at a church conference in Grinnell, Iowa, and at the Boy Scout Jamboree in Valley Forge, Pa.

Adding to the uneasiness was a report that 50 sailors stationed at Corpus Christi had been stricken.

Present vaccines are ineffective against this Asiatic virus, said Dr. J. E. Peavy, chief epidemiologist. "But I hope a new vaccine will be ready by fall."

VICE CAMPAIGN IN THE RED
Atty. Gen. Will Wilson's department is having to use "rubber checks" to carry on with its campaign against organized gambling.

Because of its extra activities, the department ran out of money, with no more due until the new fiscal year begins, Sept. 1.

OPTOMETRISTS WRANGLE
Texas optometrists are still a hassle as to whether the state can regulate their advertising — and if so, how much.

Prior to the last Legislature the State Board of Optometric Examiners tried to set up advertising regulations. Suit brought challenging its authority and the effort was dropped.

Last session a new law was passed barring "fraudulent, deceptive or misleading" advertising. At a recent meeting the board is reported to have machinery in motion to form an advisory committee to set regulations with powers to set restrictions. But some practitioners objected and talked of trying suit to test the constitutionality of the new law.

A board spokesman promptly explained the board wasn't contemplating any ban on advertising. He said the statewide advisory committee was only to make recommendations which would not be binding.

SHORT SHORTS

Half as much pay has been proposed by Austin's Sen. Charles Herring. "I've found it difficult to deal effectively with such a large number of lawmakers," said Herring, but added that he doubted the halving plan would be adopted. A total of 89 pay firms employing 1,387 persons was started in Texas last week, reports the Texas Employment Commission. Low bids totaling \$14,063,208 were tabulated by State Highway Department on July bid opening for road construction projects. One of the largest organizations in Texas was launched this week. It was launched this week as a convention leading up to the convention of state labor groups in Texas AFL-CIO.

Medina Boy Gets Training At Fort Sill

Cadet Glennis W. Stein son of Mr. and Mrs. Alfred J. Stein of Rio Medina, has now passed the halfway mark in his six weeks of intensive field training with the Reserve Officers Training Corps at Fort Sill, Okla., the Artillery and Missile Center.

The fourth week of training at the ROTC Summer Camp will be devoted to the "rounding out" of the artillery officer.

He will learn the finer points of artillery fire, and the allied subjects necessary for the maximum effective performance of an artillery unit; the use of survey instruments to accurately establish target locations; the employment of forward observers for fire on "hasty" targets.

He will receive the first of many lessons in the defense of the individual, and the unit, against atomic and chemical attack.

Cadet Stein will witness demonstrations presented by the Dept. of Material, The Artillery and Missile School, which demonstrates the characteristics and firing capabilities of all weapons employed in artillery units. Included in these weapons will be the latest artillery weapons, the 280-millimeter gun and the "Honest John" rocket.

Shop For School Now, Says Retail Merchants

The school bell will be tolling soon and the merchants of Hondo have prepared for the "Back to School" season by stocking their stores with the latest of fall items for not only the college set but also children going to school for the first time, Sam Lanham, Manager, Hondo Retail Merchants Association, said today.

He urged shoppers to make their selections now and not wait until after school has opened and the large stock of merchandise the stores have on hand has been depleted.

Most of the local stores, Lanham said, have easy payment plans for the convenience of buyers whose ready cash was spent for vacations or for unexpected expenses. Under this plan a shopper can buy now and pay for the merchandise either next month or over a period of time by monthly payments.

Lanham predicted that fall outfits would probably be the most popular sellers of the "Back to School" season and in preparation department stores and specialty shops have stocked the latest fashions in fall wear and accessories.

He said the "Chanel" look was expected to be popular this year among the coeds and many merchants are featuring plaid Bermuda type shorts for casual wear, wool jersey middie dresses, and three-piece suits with knife-pleated skirts. Iris blue with green and pepper red and charcoal are expected to be the most popular colors for the college set this fall.

For the younger set complete new outfits may be needed since boys and girls have probably outgrown the clothes they wore last fall. He urged shoppers to make the rounds of the shoe stores, jewelry stores, children's shops, department stores and specialty shops to look at the bargains offered, he said.

Now that most areas of Texas are "off drought relief" and rainy seasons are expected to be with us for the next few years Lanham suggested that raincoats and other rainy weather accessories be added to the children's wardrobe.

Furniture stores are now offering many attractive desks and other study room items.

Most drug stores carry a large and assorted stock of school supplies that the students will need in class.

Football, basketball and other sports equipment which the children will need for "gym" and after-school recreation is available at any sporting goods store.

While clothes are expected to be the big selling item, parents should not forget to stock other fall merchandise, he reminded.

For example, he said, now is the time to have the family "bus" checked to determine whether new tires and battery are needed and to consider now buying a heater for the car.

Lanham said many housewives do their fall food buying in the late summer and stock the fresh vegetables that won't be on the market in a few months in a deep freeze. Purchase of a deep freeze from an appliance store will assure fresh nourishing food for the kids during the school year.

Even though some of the college students will be going to another city to school, Lanham urged that the shopping be done locally where quality merchandise at a reasonable price can be obtained and where service and items are backed by the reputation of the local merchant.

Stars Win 3 In Row

The Hondo Little League All-Stars copped their third straight victory last Friday afternoon when they defeated the D'Hanis Little League boys by a score of 8 to 6. The game was highlighted by a running one-handed catch by Hondo's centerfielder Larry Neuman.

Leading hitter in the game for Hondo was Abdon Cantu with two for three. Hernandez hit a home run with one on for the winners. Little "Lefty" Reyes and Dennis "The Menace" Nietenhoefer handled the pitching chores.

This win made it two in a row over D'Hanis for the Hondo Stars, they took a 5-3 decision the week before.

Thursday night, July 25, the Hondo Little League players traveled to Castroville for their first game under lights, and they walked off with a 21 to 7 win. They collected 19 hits, with Charles Mussman getting 5 for 5 to lead the way. Johnny Zerr and Cantu divided the pitching chores for the Hondo nine.

The Stars are scheduled to play a return game with Castroville's Stars at Castroville August 1 beginning at 8 p.m.

Castroville Girls Split Pair

The Castroville girls outsluged the Helotes team Friday night to take the deciding tilt in their three game series, 13 to 9. J. Kempf collected three for four and A. Bippert three for five in the free scoring ballgame that saw the Castro girls push across nine runs in the 4th inning to win.

Three other Castro girls, K. Haass, C. Granieri and M. Bayer collected 2 hits. Dorothy Bippert, making her first start of the season, was the winning pitcher.

A couple of nights later, the Castro girls tangled for their second game with Devine. Again it was a slugfests but this time the girls lost 13-10. Though she was the losing pitcher, little Patsy Haass had a better night at the plate than on the mound, she got three for four. Devine took an early lead but Castroville tied it up in the sixth. Devine staged a big rally in the 7th, pushing across five runs. Castroville came back for two runs but that was all they could do.

The Castroville girls still have 3 hitters batting over 400: A. Bippert with .451, J. Kempf with .415 and K. Haass with .414. Patsy Haass is their leading pitcher with a 4-1 record. C. Granieri has a 3-3 total and D. Bippert is 1-0.

Here in Hondo

School Superintendent James Gordon Barry returned Monday night from his annual tour of duty as Lt. Col. Barry.

For the past 15 days he has been serving as monitor and explaining duties to other reserve officers at Kelly Air Force Base.

Friday night Barry's son, Lt. Jim Barry is scheduled to graduate from helicopter school at Fort Rucker, Ala. and is to be assigned to a permanent station at Fort Ord, Calif. He will probably be through Hondo on a visit about August 6, according to Barry Sr.

Visiting with M&M Bob Kollman Sunday afternoon was Dr. Fred Crawford who had been vacationing with his family in San Luis, Mexico. He and his wife were former classmates of the Kollman's daughter, Pat, when she was attending Trinity University and he was a frequent visitor in their home here.

HOSPITAL

(Continued From Page One)

Bain then changed his statement to Medina County and said that they were not objecting to the building of a hospital. They were objecting to a bond issue only because they did not believe it would pass. He said, "I will be glad to give a contribution of \$500 tonight if we change the procedure to contributions rather than resorting to a bond issue involving taxes."

Pope said his offer was most generous, but asked how many other people in Medina County would kick in \$500.

Bain said, "You made the statement, Pope, that we people in Devine do not want a hospital. That is not true. We want a county hospital and you are trying to say that we do not. We just don't think the voters will go along on a bond issue."

Dubose backed up Bain's statement. "We'd certainly rather see the whole hospital in Hondo than none at all built in the county," Pope then directed a question at Dubose. "Didn't you tell me, 'Dub', not ten days ago right in your home town of Devine that you were all for this county hospital and that you were sure the people of Devine would never support a hospital of their own in Devine?" Dubose admitted that he had, but said he had changed his mind.

The fact that hospitals frequently operate in the red was brought up and Pope hastened to state that Uvalde built their hospital nine years ago and have operated in the black for nine years. He said he could state case after case where county hospitals, if they operated at a loss, did so for only two years or less and then continued to make a profit year after year.

Bain pointed out that the Jour-danton hospital was built on contributions, that the one in Wilson County was being planned on that basis.

Bomba then stated, "Contributions might be gathered but it would take not less than three or four years and we simply do not have three years to wait before we begin the construction of one. The petitions are out and we have the opportunity to see if a bond election will pass within the next 30 days. I think we should go ahead and find out."

Pope added that "If the county resorts to a contribution basis, the actual cost to the county must be available in cash, not just in pledges, before the federal government will match our money. On a bond basis, they will match our funds, if the state approves, just as soon as the bond issue is passed, which could be in less than 30 days."

"Can we afford to wait three or four years?" Pope asked. "Jour-danton worked four years gathering their money and that included a big donation of \$25,000 from an oil company. Many more different people will pay on a tax basis than on a contribution basis. There are 6200 property owners in Medina County, 5,000 of them also residents who might be using the hospital."

Bain asked, "But what about the man who sees his taxes steadily increasing all the time? He can't be for this project." Pope answered that he didn't think anyone in Medina County had a legitimate gripe about their county taxes as they are lower here than most places.

Bain then reminded him, "You are accusing us of being underhanded, though, and we have not been. We are sincere in wanting a county hospital. We are not dealing underhanded."

Pope answered, "This project got underway in March. If you wanted to suggest a divided hospital or a change in method of raising money, it should have been mentioned before now. It's a little late for you to come up with this alternate plan. Do you have any other ideas?"

Tondre asked, "Have you Hondo fellows considered taking over the present hospital for Hondo instead of building a new one?" Pope answered that it was not suitable due to its type of construction, from the state's viewpoint, nor was it large enough to handle the growing needs of the county. Besides the present hospital is being used by people from all over the county and a new one should be built by the whole county.

Tondre said, "There are as many people from Hondo coming to our Castroville Clinic as there are Castroville people going to Hondo." Pope answered that statistics do not show that this is true, that it is being used by the county as a whole so why should Hondo build a hospital by themselves, have to pay for its construction, they have "you guys go to the hospital and pay the same room rates that we'll be paying."

Bain said, "We're going to pay our bills if we enter a hospital you have built."

Irwin commented, "I have had two babies born in this hospital but it would have been just as easy for me to have gone to San Antonio."

Pope said, "It would not. Not if you consider traffic, congestion and costs, and besides, San Antonio hospitals are going to be closing their doors to us outsiders before too long."

Irwin said, "With your attitude, Pope, you are driving Devine business away from Hondo."

Bain added, "Until you get in the swim with us and understand our problem, you are driving people away. I personally would like to see a county hospital built."

Briscose said, "You've got to face reality. They (meaning the voters) just won't go along."

Pope answered, "You're mighty late with your report."

Briscose retaliated, "You have known the attitude of our people for several weeks."

Pope then stated, "If some of my words have seemed harsh and detrimental, I want it understood that I have not spoken them as a representative of the city of Hondo or of the Hondo Chamber of Commerce, but as a member of the county hospital committee."

John Zinsmeyer, committee-man of D'Hanis, commented that 9 out of 10 people have no idea how much their assessed valuation with the county is and therefore they do not know how little it will cost. He said when he explained to people how little it was, they would go along with the idea. He said he did not understand how people could be opposed to the county hospital plan.

George Boehme of Rio Medina said, "I'd rather contribute to the cause than pay taxes. Fact is I'll be glad to figure up what my taxes would be for the hospital over a period of years and give a donation of twice that amount."

Pope asked why he felt that way and he commented that people have been hard hit the past six years. Pope asked him how long he figured it would take to raise \$300,000 by donations and Boehme said, "Not long if they agree to it. But it hurts to pay even \$1 if you haven't got it to pay."

Bain inquired, "Well, what do you want us to do?"

Pope said, "We have reached the petition stage, so whether people are for it or against it, get them to sign those petitions."

Calvin Hardt at Yancey said everybody he had talked to in his area had favored the proposition and that he had gotten a lot of signers on the petition.

Karl Faseler, also of Yancey, commented that he was sold on it and had the same feeling that Hardt had expressed.

Pope reminded the men that only 10 per cent of the eligible property owning voters were required to sign the petitions and they could be for it or against it, and then the election required only a simple majority.

Tondre expressed surprise at this, stating that he thought Judge Arthur Rothe had said at an earlier meeting that a two-thirds majority was required, but Pope said that he had since investigated and found that the simple majority would be enough.

Boehme said some of the people he had talked to said that if they gave any money to a hospital they would rather give it to the Castroville Clinic in Castroville and Pope said, "I wish you would pass that information on to Dr. Wurzbach and Dr. Eckert. I'm sure they would be glad to receive their donations."

At this point Briscose said, "I think our best bet is to continue to circulate the petitions. We'll try to get one circulated in Devine."

Zinsmeyer said, "I don't see how a town could vote against this."

In closing, Pope stated that unless the county does something about a new hospital, they might just as well quit looking for new industry and might just as well give up on trying to keep their young people in the area—that it was necessary to keep pace with the county growth.

Briscose said, "Let's give it another week. We'll get some Devine signatures."

Tondre declined to take the petition back to Castroville. Pope asked him if he had any objection to his coming over and carrying it around and Tondre told him to "come on — you don't need a license."

George Boehme said he would take a petition back to Rio Medina and asked that the Anvil Herald state that he would have it at his home and if anybody wants to sign to go by there.

The petitions will be due on August 5. That night, another hospital committee meeting is to be held.

Mrs. Mary Cook, co-owner of Medina Hospital, stated this week that they would continue to serve, just as they have since they opened their hospital during the days of the depression, until such time as other hospital facilities are available or until the situation is decided. Then she and Mrs. Bertreaver plan to sell the plant.

Clyde Bohmfalk Newest Hondo State Farmer

Clyde Bohmfalk of Hondo has been awarded the State Farmer Degree, the highest state award in the Future Farmers of America. The degree was presented through the mail since Bohmfalk was not present at the state convention in Fort Worth.

Requirements for the degree are to be enrolled in vocational agriculture and to show \$500 labor income of a minimum of four supervised farming projects. The money then must be invested in more projects or deposited in a bank. In addition to the profit requirements, state farmers must demonstrate leadership ability in FFA and other high school activities.

Bohm as local chapter president in his four years of FFA work. He has been an area vice president and Revaldina District president.

The newest state farmer in Hondo is planning to go to college in San Marcos next fall to study agriculture. He says that he might go into the Soil Conservation Service when he graduates.

Bohm is the 23rd Hondo FFA boy to receive the state farmer degree.

Gene Suehs Wants To See Mexico

Gene Suehs of Castroville wants to see Mexico City, and he has a chance to do so. He is a guest of the General Electric Company, if he can sell enough appliances between now and then.

He is having a tough battle with the GE dealer in Refugio to win this trip, and because of this Gene says he is offering amazingly low prices on all GE appliances, including dish-washers, refrigerators, washing machines or any other GE product.

Suehs tells us that he is traveling these days, and when you a deal you can't afford to pass up.

Earthquake or not, Gene is determined to win that trip to Mexico City, and he wants you to come in and see him. The dealer in this area who sells the most appliances gets to go, and Gene has been number 1 until this week, and he is now ready to sacrifice profits to make sales.
